Invest Korea Market Place

Invest Korea Market Place (IKMP) is an online business matching platform available on Invest KOREA’s website with information on over 280 Korean companies seeking to partner with foreign investors. This month, KOTRA Express introduces some outstanding companies in Korea’s renewable energy sector.

### COMPANY A

**Investment Requirement**

<table>
<thead>
<tr>
<th>Amount</th>
<th>USD 5 million</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patents and certificates</td>
<td></td>
</tr>
</tbody>
</table>

**Company Profile**

Registration of 14 patents for cooling device and method to manufacture high-pressure gas cylinder

**Investment Structure**

Minority

**Financial Performance**

(Sales) USD 59.55 million (in 2017)

**Investment Highlights**

Because of the increasing global awareness on the preservation of the atmospheric environment, the emission of harmful exhaust gas has been strongly controlled. As a result, the market for fuel containers that can store and transport industrial gas more efficiently is expected to grow steadily. In addition, because Asian countries, including China, which has not established natural gas pipelines, have to urgently develop technology for transporting natural gas more efficiently. The company achieved sales of USD 59.5 million in 2017 through its existing gas container family.

### COMPANY B

**Investment Requirement**

<table>
<thead>
<tr>
<th>Amount</th>
<th>USD 4 million</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patents and certificates</td>
<td></td>
</tr>
</tbody>
</table>

**Company Profile**

Registration of a patent for air conditioner management system (control and linkage systems for ESS cooling/heating and communications)

**Investment Structure**

Minority

**Financial Performance**

(Sales) USD 0.67 million (in 2017)

**Investment Highlights**

The company has developed and introduced the world’s first peak load reduction solution for cooling/heating systems during summer and winter through its ESS heating and cooling systems, being recognized for its technical power through pilot projects. It has secured a total EHP+ESS system after completing the joint authentication of LG Electronics’ EHP and strived to preemptively secure the local procurement market. When the Korea Electric Power Corporation (KEPCO) approves the technology, the company’s systems will be fully introduced.

### COMPANY C

**Investment Requirement**

<table>
<thead>
<tr>
<th>Amount</th>
<th>USD 1.5 million</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patents and certificates</td>
<td></td>
</tr>
</tbody>
</table>

**Company Profile**

Registration of 34 patents, including 13 patents for microorganisms and 4 patents for cultivation system; 12 patent applications including 3 applications in China

**Investment Structure**

Minority (Financial investment)

**Financial Performance**

(Sales) USD 1.53 million (in 2017)

**Investment Highlights**

The company is expected to grow at an average rate of 17.08% annually, from USD 3.1 billion in 2016 to USD 6.7 billion in 2022. The microbial feed additives market and the microbial environmental improver market are also growing rapidly.
